Monuments will not be accepted without completed foundation.

Marker size shall be no more than 24 inches in length and 12 inches in width per grave space, double marker (2 grave spaces) 48 inches in length and 12 inches in width. Over this size, or over 5 feet tall will need special approval by the Superintendent. Foot markers are not to exceed 24 inches in length, 12 inches in width and flush with the ground. Due to limited grave sizes in the newer sections, foot markers are not recommended.

Materials used must be first quality granite from recognized quarries, standard bronze, and certain Vermont, Georgia and Tennessee marble which is guaranteed by the producer to be in accordance both as to quality and finish. No heavy trucking will be permitted in wet weather and the right is reserved to refuse to allow stonework to be done at any time until the ground and avenues are thoroughly settled and in good condition.
